STRONG CUSTOMER SERVICE

Since its foundation in 1996, SIGTECH AG has been continuously driven forward and can look back with pride on a successful development.

WHAT WE STAND FOR

· Labeling solutions specially tailored to you and suitable for industrial processing
· Many years of experience and extensive know-how
· Strong and competent team that guarantees flawless order processing

WHY SIGTECH

SERVICE

Our fast-acting and experienced technicians technicians offer you professional and flexible services.

OUR PARTNERS

We work together with competent partners so that our customers can benefit from shorter support requests and immediate availability of spare parts.

INNOVATIVE SOLUTIONS

Discover our highly developed and innovative labeling solutions.

INK SYSTEMS

We offer you markings on various materials at maximum speed and precision.

LABELING TECHNOLOGY

We offer you small and large-scale labeling options for various products.

LASER

We offer you a labeling option that requires virtually no consumables.

STENCILING TECHNIQUE

We offer you various stencils and aids for precise labeling technology.

THE SOLUTION FOR YOUR MOST DIVERSE
NEEDS

OUR SOFTWARE RANGE

Individual and customized solutions:

- Modern design of print templates
- Connection to existing databases
- (e.g. SAP and other ERP systems)
- Control and monitoring of printers

LABELING ALLERGENIC SUBSTANCES

Extensive modules for automatically formatting allergenic substances.

Integration and communication between the various printing technologies is our specialty.

We use modern technology and control inkjet printers, labeling systems and laser marking devices.

LP5 AND NICELABEL

Automation PC software LP5
Our automation PC software enables you to design labels, control printing and monitor labeling systems

Nicelabel
Frequently used software to simplify label design.

«The solution for your most diverse needs»

THE SOLUTION FOR YOUR IDEAL
APPLICATION

MOST EFFICIENT
alphaJET 5 X
Reliable, long-lasting product marking with the best printing results.

THE FASTEST
alphaJET 5 X-FP
Reliable, versatile product marking with the best print results.

FOR THE SMALLEST CHARACTERS
alphaJET 5 SP
Precise marking with the best print results in the smallest space.

THE ALLROUNDER
alphaJET HS-M
Wide choice of standard and special inks for product marking.

1 PRESSURE HEAD
RNJet H1+
Easy, affordable marking and coding with the RNJet H1+.

DOUBLE HEAD
RNJet H2+
The RNJet H2+ is ideal for coding small characters in a variety of applications.

AUTOMATION

INK SYSTEMS

THE SOLUTION FOR YOUR ACCURATE PRESENTATION OF
PRODUCT INFORMATION

FULLY AUTOMATIC & FLEXIBLE
evolabel FlexWipe

The evolabel FlexWipe is the latest generation pallet labeler and the most user-friendly printing and labeling system.

LOGISTICS APPLICATOR
evolabel QuickTamp

Evolabel's printing systems are user-friendly, reliable, and even at high output, they are safe to operate throughout their entire service life.

THE BEST SELLING
cab Hermes Q

The Hermes Q4 is ideal for many industrial applications.

COMPACT BUILT
cab IXOR

The label dispenser with dispensing edge.

THE UNIVERSAL
cab SQUIX

The best selling, universal label printer.

LABELING TECHNOLOGY

THE SOLUTION FOR LABELING
DOWN TO THE SMALLEST DETAIL

SMART, RELIABLE, VERSATILE
SPA 2 C

Reliable laser marking in normal, dusty and washable environments.

THE SUSTAINABLE
SPARK

The SPARK is the small character laser coder for greater sustainability.

INTELLIGENT, PRECISE & RELIABLE
SPA 2 F

The SPA F Pulsed is a fibre laser that specializes in coding and marking a wide range of materials.

LASER

FOR ALL YOUR WISHES

TRACEABILITY SOFTWARE

ERROR ELIMINATION THROUGH TARGETED AUTOMATION IN PRODUCTION AND LOGISTICS

We offer you device controls for your variable data and traceability.
Benefit from our knowledge and many years of experience in this area.

PRINT, READ, CONTROL AND LOG BARCODES ACCORDING TO STANDARD

We have the ability and the know-how to visualize and produce complete systems for automated processes for you.
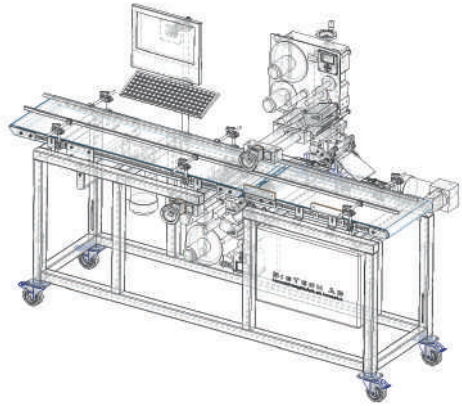

PRODUCT TRACEABILITY ACCORDING TO GS1 STANDARD

We offer you turnkey solutions with data matrix codes so that you can guarantee quality assurance that complies with market and legal requirements.

Special machine construction in the field of coding and marking technology involves the development and manufacture of customized machines and systems that meet specific requirements in the field of coding and marking.

Special machines in the field of coding and marking technology are often developed individually for specific applications or industries. These may include machines that need to achieve high speeds during marking, systems that can mark special materials or surfaces, or systems that are compatible with different products or production lines.
