CUSTOMISED SOLUTIONS

STRONG CUSTOMER SERVICE

Since its foundation in 1996, SIGTECH AG has continuously developed with passion and innovative spirit. Today, we look back proudly on our success story – and with equal confidence to a future full of new opportunities.

THIS IS WHAT WE STAND FOR

- Our customers benefit from our speed, flexibility and absolute reliability, which enable them to efficiently fulfil their individual requirements
- Our employees bring expertise, professionalism and long-term continuity to the table, guaranteeing reliable cooperation
- We offer solutions through customised in-house manufacturing that are perfectly tailored to the needs of our customers and guarantee the highest quality

WHY SIGTECH

SERVICE

Our experienced and responsive engineers are on hand to provide professional, flexible and tailored services. With the utmost precision and reliability, they ensure that your requirements are met efficiently and on time.

OUR PARTNERS

We rely on strong partnerships with competent experts so that our customers can benefit from shorter response times for support requests and the immediate availability of spare parts.

OUR PRODUCTS

INNOVATIVE SOLUTIONS

Discover our highly developed and innovative labelling solutions.

Ink Systems

We offer you labelling on a range of materials at the highest speed and with the utmost precision.

Labeling Technology

We offer you small and large labelling options for a variety of products.

Laser

We offer you a labelling option that requires almost no consumables.

Stenciling Technique

We offer you a range of templates and tools for precise labelling.

THE SOLUTION FOR YOUR MOST DIVERSE  
NEEDS

UNSERE SOFTWARE PALETTE

Customised and client-specific solutions:

- Modern design of print templates
- Connection to existing databases (e.g. SAP and other ERP systems)
- Controlling and monitoring printers

LABELLING OF  
ALLERGENS

Comprehensive modules for automatically formatting allergenic substances.

Integration and communication between the various printing technologies is our speciality.

We use modern technology and control inkjet printers, labelling systems and laser marking devices.

LP5 AND NICELABEL

Automations - PC - Software LP5  
Our automation PC software allows you to design labels, control printing and monitor the labelling systems

Nicelabel  
a popular software package that makes designing labels easier

«The solution for  
your most diverse needs.»

THE SOLUTION FOR YOUR  
IDEAL APPLICATION

**MOST INNOVATIVE  
IQJET**  
Uncompromising print quality, maximum reliability and new standards in efficiency and sustainability.

**THE MOST EFFICIENT  
Jet3UP**  
The expert for a wide range of special applications, for high-contrast inks, ideal for dust- and waterproof applications.

**THE MOST ADAPTABLE  
JET2NEO**  
Reliable, precise and adaptable, with minimal consumption and low maintenance.

**THE MOST EFFECTIVE  
alphaJET 5 X**  
Reliable and sustainable product marking, print quality at the smallest marking up to 1300m/min

**THE ENTRY-LEVEL VERSION  
alphaJET Mondo**  
With integrated solvent recovery, user profile management and TrueType font printing.

**More  
...ink systems**  
In addition, thermal cartridge systems TIJ, inkjet printers DOD and high-resolution printers HI-RES are available.

THE SOLUTION FOR YOUR PRECISE PRESENTATION OF

# PRODUCT INFORMATION

FULLY AUTOMATIC AND FLEXIBLE

## evolabel FlexWipe

The evolabel FlexWipe is the latest generation of pallet labelling machines and the most user-friendly printing and labelling system.

LOGISTICS APPLICATOR

## evolabel QuickTamp

Evolabel printing systems are user-friendly, reliable and safe to use throughout their entire lifespan, even at high output.

THE SOLUTION FOR LABELLING

# DETAIL IS EVERYTHING

VERSATILE & SMART

## SPA 2 C

Can be integrated into any production line, labelling of various materials, wide range of additional accessories.

THE SUSTAINABLE ONE

## SPARK

Compact, light and easy to connect, consumables-free operation, device status can be accessed remotely.

THE BEST-SELLING

## cab Hermes Q

For automatic printing and labelling in production lines, divided into narrow 58mm, medium 114mm and wide 174mm.

COMPACT DESIGN

## cab IXOR

Motorised unwinder and winder available in different versions, optionally with specially developed dispensing edge.

THE UNIVERSAL

## cab SQUIX

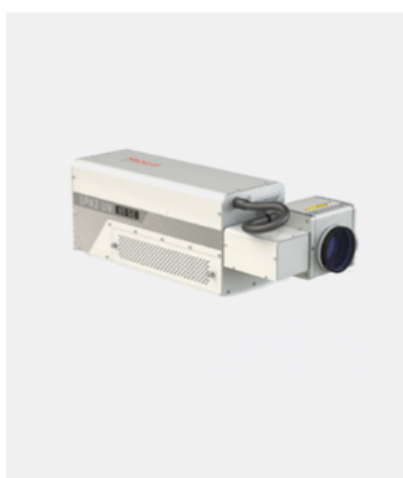

Reliable and fast printing, label widths from 56.9mm to 216mm, ideal for a wide range of productions.

INTELLIGENT & PRECISE

## SPA 2 F

A fibre laser that specialises in the coding and marking of a wide range of materials, and all at high speed.

INNOVATION & PERFECTION

## SPA 2 NANO UV

The SPA 2 NANO UV sets new standards in marking efficiency. This state-of-the-art device is characterised by high-contrast marking and ensures clear and distinct results.

CUSTOM-MADE FOR

# ALL YOUR NEEDS

---

In the field of special-purpose machine construction in labelling technology, the focus is on the development and production of customised machines and systems that meet specific labelling requirements.

Special machines in the field of labelling technology are often developed individually for specific applications or industries. These may include machines that have to achieve high speeds during labelling, systems that can label special materials or surfaces, or systems that are compatible with different products or production lines.

WE HAVE THE EXPERTISE IN THE FIELD OF

# TRACKING SOFTWARE

---

ELIMINATING ERRORS THROUGH  
TARGETED AUTOMATION  
IN PRODUCTION AND LOGISTICS

We offer you device control systems for your variable data and traceability. Benefit from our knowledge and many years of experience in this field.

BAR CODES ACCORDING TO STANDARD  
PRINTING, READING, CONTROLLING AND  
RECORDING

We have the ability and the know-how to visualise and produce complete systems for automated processes for you.

PRODUCT TRACEABILITY  
IN ACCORDANCE WITH THE GS1 STANDARD

We offer you turnkey solutions with data matrix codes so that you can guarantee market- and legally compliant quality assurance.

- Aggregation
- Validation Package
- Serialisation
- Validation Service

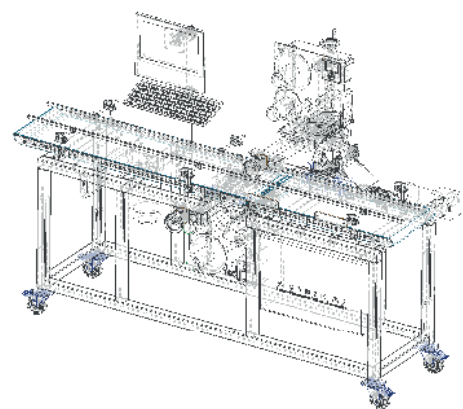

MANY YEARS OF EXPERIENCE

# DISTINGUISHES US FROM

---

OWN DESIGN DEPARTMENT –  
MECHANICAL WORKSHOP  
DIRECTLY ON SITE

Your project is in good hands with us. We not only visualise practical solutions using 3D CAD drawings, but also impress with our many years of expertise.

CERTIFIED TO ISO 9001:200

We have been ISO 9001 certified since 2001. We are constantly optimising and improving our processes in our day-to-day work and are constantly developing further.

IN-HOUSE SERVICE  
OR ON SITE SERVICE

Our high level of service and flexibility is highly valued. We have a large selection of replacement units available in our warehouse and offer you services both in our workshop and directly at your site.

TRAINING ON SITE  
OR AT OUR FACILITIES

Whether online, at our premises or at your own, your concerns are important to us and we are happy to pass on our expertise to your employees.

WE ARE HAPPY TO SHOW YOU THE WIDE VARIETY OF APPLICATIONS  
DURING OUR NEXT VISIT
